LAKE HAMILTON CLOSURE - SUSPECTED BLUE-GREEN ALGAE BLOOM

Council would like to advise members of the public to avoid physical contact with the water in Lake Hamilton due to suspected high levels of toxic Blue Green Algae. Water samples collected from the Lake this week presented visible algae scum which is indicative of algae blooms.

Landholders and animal owners are reminded to ensure that their stock and pets are prevented from drinking the water in the lake.

Signs have been erected in key locations around Lake Hamilton notifying the public of the health and safety risks. Recreational land such as picnic areas and playgrounds remain open.

Council will continue to monitor Lake Hamilton's water for blue green algae until the algae levels have reached a safe level.

For further information, please contact Council's Environmental Health Department on **5573 0244** or eho@sthgrampians.vic.gov.au.
